

Martha, who is a coffee connoisseur, loves her expensive coffees. She is giving a lecture on the proper steeping method for 5 of the top brands of coffee beans. Using the clues below, determine the cost per 500 grams of the coffee beans, the name of the coffee, the temperature at which it must be steeped, and the steeping time.

1. The Kopi Luwak does not cost \$80.00.

2. The coffee that costs \$100.00 needs 215 degree water.

3. Of the beans that requires 200 degree water and the coffee that steeps for 3.5 minutes, one is the Fazenda and the other is the La Esmeralda.

4. The St Helena steeps for 45 seconds.

5. The St Helena coffee shouldn't be brewed with 195 degree water.
6. The variety that steeps for 3 minutes is either the coffee that costs \$80.00 or the bean that requires 200 degree water.

7. The variety that costs \$50.00 is either the Fazenda or the coffee that requires 210 degree water.

8. The variety that steeps for 3.5 minutes costs 40 dollars more than the Blue Mountain coffee.

9. Of the tea that requires 205 degree water and the variety that costs \$40.00, one steeps for 1 minute and the other is the Blue Mountain.
